Customs Duties

Govt. Notice No. 247 of 1930

SCHEDULE I.

(Italics denote Amendments, Alterations and Additions.)

A.—IMPORTS.

1. *There shall be levied and collected upon goods imported into the Protectorate the several duties set forth in Tables I, II, III, IV and V hereto.*

2. The value of goods upon which duty is leviable ad valorem shall be the value of the goods at the place where such goods are purchased as shown on the genuine invoice produced to and accepted by the Comptroller of Customs, together with any purchasing commissions, the cost of packages ordinarily used at the place of purchase, the extra cost of packing and packages for export, carriage to the port of shipment and all other expenses incidental to placing the goods on board the ship, together with the cost of freight, insurance, bank charges, interest, and all other charges up to the time of discharge at Beira: provided that in no case shall the value for purposes of duty be less than the cost of the goods to the importer on board ship at the port of shipment plus 10 per cent., or, in the case of goods imported into the Protectorate from contiguous territories, the cost of the goods to the importer at the place of despatch.

The Comptroller of Customs may allow trade discounts recognized in the particular trade and shown on the invoice to be deducted from the value for duty, but no further deduction may be allowed on account of any cash or special or sample discount or of any arrangements concerning the export or the exclusive right of sale of the goods or any consideration by which a reduction in value results.

Class.	Specification of Taxes, etc.	Rate.	Authority.
Customs Duties	IMPORTS--(continued).		Govt. Notice No. 247 of 1930
	3. Whenever goods are imported into the Protectorate under such conditions as render it difficult to determine the value thereof in as much as—		
	(a) such goods are not sold for use or consumption in the country of export; or		
	(b) the right of using such goods, but not the right of property therein, is usually sold or given; or		
	(c) such goods are usually or exclusively sold by or to agents or by subscription; or		
	(d) such goods are sold or imported in or under any other unusual or peculiar manner or conditions, the Comptroller of Customs may determine the value of such goods for purposes of duty in accordance with the provisions of this schedule.		
	4. All invoices for imported goods manufactured in a foreign country and purchased in their country of origin shall be in English and shall indicate the value of such goods as expressed in the currency of that country, and also the value of the same as expressed in British currency, the latter value being computed at the rate of exchange for the time being current between the two currencies at the date of purchase, and such rate of exchange shall be clearly stated on the invoice.		
	5. Where the importer is unable to produce particulars of all or any of the charges herein-before referred to the Comptroller of Customs may accept payment of import duty on such valuation additional to the purchase price as in his opinion shall represent the actual cost of the goods as defined in paragraph 2 of this schedule; but where the importer of the goods declines to accept such valuation for the purpose of assessment of import duty, entry of the goods may be permitted by the Comptroller of Customs on payment of the amount of the duty so assessed by him subject to adjustment of same on production of evidence to his satisfaction of the actual amount of such charges within six months of the date of entry of the goods.		
	6. Invoices and other documents relating to the importation of goods may be retained by the Comptroller of Customs.		
	7. Without prejudice to any right of final appeal contained in section 15 of the Customs Ordinance, 1906, the Comptroller of Customs shall decide any dispute which may arise as to the rate of duty to be assessed or dues to be charged on a particular article imported or re-exported whether specifically mentioned or not in these schedules.		
	8. No import duty shall be levied or collected upon the goods set forth in Table VI hereto.		
9. NOTES.

For the purpose of ascertaining the horse-power of any motor-car deriving its motive power wholly from a steam, internal combustion or other engine worked by a cylinder or cylinders there shall be taken:—

- (i) in the case of a single-cylinder engine, the horse-power attributable to the cylinder of the engine;
- (ii) in the case of an engine having two or more cylinders, the sum of the horse-powers attributable to the separate cylinders.

The horse-power attributable to any cylinder shall be deemed to be proportional to the square of the internal diameter of such cylinder measured in inches, and shall be determined according to the number of square inches contained in such square, the unit being taken to be:—

- (iii) in the case of a single-acting cylinder having a single piston, one horse-power for every $2\frac{1}{2}$ square inches;
- (iv) in the case of a single-acting cylinder having two pistons, one horse-power for every $1\frac{1}{2}$ square inches;
- (v) in the case of a double-acting cylinder having a single piston, one horse-power for every $1\frac{1}{4}$ square inches.

Any motor vehicle deriving its motive power or any part of its motive power otherwise than from an engine worked by a cylinder or cylinders shall be deemed to be of a horse-power exceeding 12 but not exceeding 15, provided that, where the motive power is derived in the part from an engine worked by a cylinder or cylinders the horse-power of the vehicle shall not be deemed to be less than the horse-power attributable to the cylinder or cylinders of such engine.

	<p>Where it appears that in consequence of the exceptional design or construction of the engine of any motor vehicle the horse-power as calculated under the foregoing rules is substantially less than the power which the engine is actually capable of developing, the horse-power of the vehicle shall for the purposes of these regulations be taken to be the same as that of a vehicle of equal efficiency deriving its motive power from a cylinder engine of the ordinary type.</p> <p>In measuring cylinders and calculating horse-power, fractions of an inch and fractions of an unit of horse-power are to be taken into account.</p> <p>For purposes of duty a fraction of an unit of horse-power shall be taken as one horse-power, except under item 7 (1).</p> <p>The duty on whisky, brandy, rum and gin shall be calculated on the proof strength as shewn by Sikes' hydrometer at as low a temperature as possible. When such spirits are mixed with colouring, sweetening or other matter in solution tending to conceal the actual strength, an addition of 5 per cent. shall be made to the apparent strength as shewn by the hydrometer in lieu of the test for obscuration.</p> <p>Six reputed quart bottles or twelve reputed pints shall be assumed to contain one liquid gallon.</p> <p>Reputed 12 oz., 14 oz., and 16 oz. packets of candles to be deemed to be of those weights respectively.</p> <p>Goods chargeable with duty by weight shall, except where otherwise provided for, be charged with duty on the net weight, which may be arrived at either by weighing net, or deducting from the gross weight the actual tare or an average tare agreed to by the importer.</p> <p>A complete article imported in an unassembled condition is liable to the rate of duty which would be applicable to that article if imported in a fully set-up condition, notwithstanding that the constituent parts are packed separately and are provided for elsewhere in the tariff.</p> <p style="text-align: center;">TABLE II.</p> <p style="text-align: center;">IMPORT DUTIES: AD VALOREM 25 PER CENT.</p> <ol style="list-style-type: none"> Clothing (second-hand) imported for sale. Postal.	<i>Period during which Orders are payable.</i> If an Order be not paid within three months from the last day of the month of issue, a commission equal to the original poundage will be charged. The commission thus paid must be affixed in Postage Stamps to the back of the Order. Postal Orders which are not presented for payment within six months from the last day of the month of issue must be sent to the Postmaster-General, Zomba, with a request for payment at some specified office.		The Post Office Ordinance, 1916
	An enquiry fee of 2/- will be charged in the case of applications for duplicate Postal Orders of any denomination higher than 2/6 of which the serial number cannot be furnished. If an applicant can neither produce the counterfoil nor give the serial number, no claim in respect of an order belonging to any denomination up to and including 2/6 can be entertained. 	EXPRESS DELIVERY SERVICE— Express messengers are provided for the performance of the following services:—		The Post Office Ordinance, 1916
	Service 1—Express throughout— The delivery of letters, etc., by special messenger within a distance of fifty miles	First 6 miles: 6d.	
	Letters sent by special messenger for the whole distance (Service 1) will be charged for at the rate of 6d. for the first 6 miles, and 1d. for each additional mile or portion of a mile.	Each additional mile or portion thereof: 1d.	
	The fee payable will in no case be less than the ordinary Postal Rates of the Protectorate.	Minimum charge: 1/-	
	In cases where a reply is sent a further charge is made calculated at half the original mileage fee; fractions of a penny being reckoned as one penny. This may be prepaid by the person at whose instance the original service is undertaken.	Replies charge half original mileage	
	Messengers may be kept waiting for a reply for one hour. If detained longer a charge of 3d. per hour is made. Persons desiring to send several packets for delivery to different addresses by the same messenger may do so if they choose to risk the chances of error and confusion by the native carriers. In no case, however, will a messenger be despatched with a greater weight than 20 lbs.	Detention over one hour 3d. per hour	
	Service 2—Express delivery after transmission by post— Letters forwarded by this service are sent out for delivery by special messenger upon arrival at the Post Office of destination. Articles to be forwarded by ordinary post and afterwards delivered by special messenger from the Post Office of destination (Service 2) should be marked "Express," and have affixed postage stamps to the amount of at least the minimum Express Fee (6d.) in addition to the ordinary postage. It is desirable that Express Packets should be brought to the Post Office counter and not posted in a letter-box.	Ordinary postage plus express fee 6d.	
	On arrival at the Post Office of destination the packet will be sent out for delivery accompanied by a form upon which is stated the name of the addressee, the time of the messenger's despatch, and, in the event of the distance being greater than that covered by the fee affixed to the letter, the amount of the additional charge payable on delivery. This form should be signed by the person receiving it, and after being marked with the time of the messenger's arrival, handed to him for return to the Post Office.

Postal.	<p>Service 3—Express delivery on arrival of mail— By this service any person can arrange for the delivery of his correspondence arriving by a particular mail, or a delivery on fixed days of the week. Persons desiring that their correspondence arriving by any particular mails should be sent out for delivery (Service 3) should, previous to the arrival of the mail, make written application to the Postmaster, enclosing stamps for the payment of the fee calculated at the rate of 6d. for the first 6 miles and 1d. for each additional mile or portion of a mile. If there are no letters a messenger will (unless otherwise arranged) be despatched with an intimation to that effect, the fee paid being retained to pay for this service.</p>	<p>First 6 miles: 6d. 	<p>PRIVATE BAGS—</p> <p>1. CONDITIONS OF RENTAL.—The Department undertakes to make up private post bags on the following terms:</p> <p>(a). Each bag must be provided by and at the cost of the person desiring the facility, and is subject to the approval of the Postmaster-General.</p> <p>(1) For routes served by native runner, a canvas bag weighing not more than 2½ lb must be supplied. The bag should approximate to the size 22 in. by 14 in. and be fitted with a canvas sling, neckstrap and hasp, and lock with at least two keys.</p> <p>A leather tab bearing the name and address of the renter should be riveted to the bag.</p> <p>(b). A rental of 10/- per annum (1st January to 31st December) must be paid in advance, and if the renter requires the bag to be made up at more than one Post Office, a separate rental will be chargeable for each office. In respect of new services rental is charged for the unexpired portion of the year, any portion of a quarter being considered a full quarter.</p> <p>All rentals are renewable on the 1st of January each year. It is to be clearly understood that the rental charged is purely for the making up of the bag, and not for the conveyance. The charges for a Private Bag conveyed by the Post Office are as follows:</p> <p>1. For each conveyance by the Post Office in one direction (either out or in) 15/- a year.</p> <p>2. For conveyance by Postman, on mail routes, for a distance of:</p> <table><tr><td>Not exceeding 10 miles</td><td>£2 a year.</td></tr><tr><td>and exceeding 10 „</td><td>£3 „</td></tr></table> <p>(c). If the renter resides on a postal route, the bag or bags will be conveyed by mail carrier providing circumstances permit. If the renter resides off a mail route, he must make his own arrangements for the conveyance of the bag to or from such route or the nearest Post Office.</p> <p>The bag must be made up at the nearest convenient office. (In order to avoid delay to the mail carrier, it is usual to make up private bags at the office situated at the starting point, or at an office en route at which a stoppage is made for sorting purposes, but a bag will not be made up at one Post Office for delivery at another.)</p> <p>(d). The bag may be used for letters for persons in the neighbourhood of the renter's residence, at an extra charge of 10/- a year for each person, provided that the permission of the renter is given to the Postmaster in writing. Where such permission is given, the renter will be held responsible for all unpaid postage on letters for such persons.</p> <p>Articles which cannot be delivered within a reasonable period should be returned to the Post Office endorsed with the reason for non-delivery. Mis-sent articles should be sent back by the first opportunity.</p>		Not exceeding 10 miles	£2 a year.	and exceeding 10 „

Postal.	<p>PRIVATE BAGS—(continued).</p> <p>(e). Registered packages are usually not delivered until receipts therefor are obtained. An exception is made in the case of private post bags, the packets being enclosed therein with the relative receipt slips, provided the renter indemnifies the Postmaster in writing from all liability and guarantees to return the receipts by first post. The forwarding of parcels can similarly be arranged, but the Postmaster will use his discretion, based principally on the circumstances of conveyance, as to whether he will send out bulky or fragile parcels attached to the bag, or require them to be called for at his office.</p> <p>(f). The renter must provide for the bag being met on its arrival at the appointed place and for the return bag being handed to the proper officer on its return journey. Under no circumstance can the means of conveyance be kept waiting at any point en route should the bag not be ready for despatch, nor will a detour from a recognized route be made to deliver a private post bag.</p> <p>(g). Transfer of a private post bag can be effected only on a written request of the registered holder, and with the authority of the Postmaster-General.</p> <p>(h). At offices where private boxes are installed a private post bag cannot be rented by any resident without a private box being rented in addition.</p> <p>(i). All applications for private post bags should be made to the Postmaster of the office from which the service is desired: and that officer will obtain the authority of the Postmaster-General before instituting the service.</p> <p>(j). In the event of the above conditions not being complied with, or if in the opinion of the Postmaster-General improper use is being made of the bag, the Postmaster-General may discontinue the service forthwith.</p> <p>PRIVATE BOXES.—</p> <p>1. CONDITIONS OF RENTAL.—Private Post Office Boxes may be rented at certain Post Offices, and the renter of a Private Post Office Box will accept the lease under the following conditions, and will forfeit all rights by non-compliance or failure to carry out any or all of the rules hereinafter set forth. He will be held responsible for the observance of the regulations, and no other person will be recognized in connection therewith.</p> <p>(a). The rental fee for the box, is £1 1s. small box, £2 2s. for large box per annum, which is payable in advance, and is calculated to 31st December in each year, any portion of a calendar quarter being considered as a full quarter.</p> <p>(b). The hours for access to Private Post Office Boxes may be varied at any time by the Postmaster-General.</p> <p>(c). A box may not be rented in a fictitious name, or for an improper purpose.</p> <p>(d). The transfer of Private Post Office Box rights from one Post Office to another is not permitted; and the transfer of a box from one person to another is subject to the approval of the Postmaster-General and will only be considered in cases of bona fide change of business or other sufficient reasons.</p> <p>(e). No two persons, unless they are in business partnership, can jointly rent one private box, and persons or firms trading under two or more designations may be required to rent a box for each designation. Under this regulation any group of companies having a joint management may be required to rent a separate box for each company.</p> <p>(f). Delivery into a Private Post Office Box is in all respects equivalent to personal delivery to the addressee.</p> <p>(g). Mail matter will be placed in a box only when addressed to the renter of the box, or to his care, or specially addressed to the number of the box.</p> <p>(h). Mail matter delivered in error, or accidentally addressed to a wrong box, must be immediately reposted, with the words "Not for box" written thereon. Should a case come under notice where this is not done or flagrant neglect is shown by the renter or person in possession of the key in detaining or delaying such mail matter, the box may be declared forfeited and the return of the keys demanded. (j). In exceptional circumstances—the loss of a key for instance—mail matter from any private box may temporarily be delivered at the counter, subject to compliance with the provisions of paragraph (k). (k). Unless the renter be well known, or be identified by some one known to a responsible officer of the Department, the only admitted "proof of identification" shall be the receipt for the box rent. (l). Mail matter will be re-addressed from one box to another only in exceptional circumstances, and upon application to the Postmaster-General. Postmasters are not obliged to re-address mail matter unless the box be closed. (m). A Private Post Office Box is provided exclusively for the reception of mail matter which has passed through the Post. Any private articles deposited therein by a renter will be surcharged as if posted out of course. (n). When a box is let two keys are supplied both of which are required to be returned to the Postmaster when the box is given up. Additional keys are only supplied upon payment of 2/- each. If a key is lost information must at once be given to the Postmaster in order that a new lock may be fitted, for which a charge of 5/6 will be payable. (o). No lock may be placed on any box other than a lock supplied by the Department, and no repairs to a box may be executed except by the Department. (p). The renter of a box must defray all expenses for damage to such box or to locks or keys thereof, if caused by him or due to his negligence. (q). The Postmaster-General may refuse to let or re-let a box to any person without assigning any reason for such refusal. (r). The foregoing conditions may at any time be augmented or revised, as the Postmaster-General may from time to time deem expedient, by notification in the Post Office Guide; and any such addition or revision shall apply to every box rented under the foregoing conditions.	£ s. d. NOTE.—Maize is the staple foodstuff in most districts; groundnuts, rice, wheat, beans, and various other crops are also grown by natives for local consumption, but it is impossible to make an accurate estimate of the quantities of any of these crops.

The above tobacco figures represent the quantities purchased in each district, and do not accurately reflect the production by districts, as many natives grow their tobacco in one district and sell in another.

General information regarding the industry and the possibilities of development.

The forests of the Protectorate consist almost entirely of the dry "open woodland" and "savannah" types, in which the canopy is rarely sufficiently dense to preclude the growth of tall grasses. During the drought period fires invariably sweep through the forests, burning the grasses and destroying smaller shrubs and trees. The trees composing the forests rarely attain a basal diameter of much over twelve inches or a greater height than 40 feet, and generally the forests may be said to be of little commercial value except for local use as poles and fuel.

Trees of suitable dimensions and quality for conversion into sawn-timber are invariably scarce, and in many localities are principally confined to the banks of streams or to damp ravines on hill slopes. On Mlanje mountain, chiefly confined to gullies and ravines, are small patches of forest containing the valuable coniferous tree *Widdringtonia Whytei* (Mlanje cypress) which attains large dimensions and provides a strong, durable "softwood" timber. These forests are under the management of the Forest Department for supplying building timber to the Public Works Department; they are insufficient in extent to allow of concessions being granted to the public for exploitation, although small quantities of sawn cypress timber are available for sale from time to time.

There is no timber available for export, and although imports of timber are at present small they are increasing annually.

Thirty-eight forest reserves have been constituted having an aggregate area of 2,510 square miles. These areas are mostly important catchment areas and have been reserved mainly with the object of maintaining and improving water-supplies, although some of them contain forest of a slightly better quality than the general poor type. In addition to this reservation, a scheme is in operation whereby small, widely-scattered areas of forests are being selected and demarcated by village headmen with the object of trying to maintain a sustained yield of building poles and fuel for the village communities. After approval the area selected is specifically allocated to the individual headmen, who is then responsible for the protection of this "village forest area" and for the control of cutting under simple plans as advised by the Forest Department.

The Forest laws (the Forest Ordinance, 1926 and its supplementary Forest Rules, 1926) provide for the protection of Forest Reserves; Village Forest Area; all trees growing within 30 yards of river or stream; and certain species of trees on other Crown lands. Apart from these restrictions natives are allowed to cut trees and forest produce for their own use without licence or payment, but non-natives are required to pay royalties on all scheduled forest produce.

Forest plantations continue to be established both by the Government and by European settlers throughout the Protectorate; the latter planting mainly for the production of fuel necessary for tobacco curing. Government afforestation, which is being undertaken at several centres, comes under two categories, viz. (1) establishing plantations for the production of softwood building timber (coniferous species being used which have already shown considerable promise) and (2) experimental planting for ascertaining the

* This figure only comprises the accessible patches of cypress forest on Mlanje Mountain and all government and privately-owned forest plantations.

As stated above some of the better savannah forests contain a small amount of commercial timber (usually much scattered), and such timber is often found lining stream banks, but it is impossible to give an acreage for this.

† Comprises the various types of savannah forest; often extensively interspersed with native settlement and largely composed of small trees having little commercial value except as poles and fuel for local use.

best species to plant (for the production of timber, poles, fuel, etc.) at various altitudes and under varying conditions. The present total area of government plantations is over 1,700 acres. Natives are being encouraged to form communal plantations in localities where insufficient natural forest remains for the allocation of effective "village forest areas." For this purpose plants are distributed free of charge from government nurseries in many districts. Tree seeds are sold to the public by the Forestry Department and advice on afforestation is given whenever asked for.

Wood fuel is used on the lake steamers, etc., and by the European and native populations generally.

Vast quantities of poles and bamboos are used by the native population in the building of their huts, which invariably have to be renewed every three or four years, or even more frequently. Most native domestic articles are made from local timber, and near the shores of Lakes Nyasa and Shirwa, and along the banks of a few of the larger rivers, canoes are made in the form of hollowed-out tree trunks. Most of the numerous native medicines are derived from forest products.

The only minor forest products collected for export are beeswax and strophanthus seed. Mats for local trade are woven from palm leaves by natives living in localities where palms are plentiful and the fibrous bark of certain trees is used generally as a string for binding purposes.

Coal in North Nyasa District and Sumbu.
Bauxite on Mlanje Plateau.

Water power is utilized by the Government for the generation of electric light and power for use in Zomba. Private persons in various districts use water power for running saw mills, grinding meal, ginning cotton and preparing sisal fibre for the market.

6. INDUSTRIAL ESTABLISHMENTS AND MANUFACTORIES.

(so far as not included under sub-sections 1-5 above).

Industry.	Number of Establishments or Manufactories.	Number of persons employed.	Cost of Raw Materials used.	Output during the year.	
				Quantity.	Net selling value at factory or works.

In the strict sense of the term there are no industrial establishments or manufactories in the Protectorate.

Furniture, baskets, etc., are made at the missions and elsewhere; mats and pottery by natives in certain districts; maize meal and beer are made by natives throughout the Protectorate for their own use.

There are 14 cotton ginneries which handled during the year 33,315 cwts. of lint cotton, and 17,000 cwts. of tea were manufactured in the Mlanje district almost entirely.

7. SUMMARY OF INDUSTRIAL DEVELOPMENT.

A summarised statement of any developments in the agricultural, forestal, fishing, mining, and other industries of the Protectorate during the year under review, with a statement as to progress up to date. A special account should be given of government grants or other action for the development of the natural resources and industries of the Protectorate.

Tobacco and cotton continue to be the most important crops grown for export.

Coal-boring operations are in progress near Chiromo; the work has been rendered possible by a grant from the Colonial Research Committee for the purchase of rotary drilling plant. Well-sinking work has been undertaken in the drier parts of the Lower Shire area with a view to assisting native agriculture. Mica is being worked on a small scale in South Nyasa.

LAKE NYASA.

<p>1. At bar or entrance, what is— (1) the minimum width? (2) the minimum navigable depth, L.W.O.S.T.? <i>Note.</i>—If between the entrance and the deep sea there are bars or shoals where a lesser depth occurs than the minimum indicated above, a list of such obstructions and of the depths over them (L.W.O.S.T.) should be given.</p>	Not applicable to any port on Lake Nyasa.
<p>2. In the approach channel from bar or entrance to berthing accommodation, what is— (1) the minimum and maximum width? (2) the minimum and maximum depth, L.W.O.S.T.?</p>	Do.
<p>3. What is— (1) the rise and fall of tides (a) ordinary springs, (b) ordinary neaps? (2) the rise of ordinary neaps above L.W.O.S.T.?</p>	No tides.
<p>4. What is the maximum available depth of water— (a) at piers or wharves, L.W.O.S.T.? (b) in the case of enclosed docks in the entrance locks, if any, and at dock quays, H.W.O.N.T.?</p>	No piers or wharves.
<p>5. What are the respective lengths of piers, wharves, or (in the case of enclosed docks) dock quays, where the maximum depth of water referred to in Question 4, exists? What percentage does the total of these lengths bear to the total accommodation at the port?</p>	Do.
<p>6. What are the dimensions (length, loaded draught, and beam at that draught) of the largest vessels which under existing circumstances, can be— (a) berthed alongside any pier or wharf (L.W.O.S.T.)? (b) in the case of enclosed docks— (1) admitted direct to? or (2) admitted through the entrance lock of any important dock or docks, H.W.O.N.T.?</p>	Do.
<p>7. What are the dimensions (length, breadth, and depth over sill H.W.O.N.T.) of the largest dry dock or floating dock in the port?</p>	No dry docks or floating docks.
<p>8. Are operations in progress to increase the depth of water— (a) at the entrance and in the approach channel— (b) in the case of enclosed docks at the entrance lock, if any, of any important dock or docks— (c) at the principal berths— to 40 feet at L.W.O.S.T. (in the case of the berths at enclosed docks, H.W.O.N.T.), and is accommodation being provided for vessels 1,000 feet in length and of 100 feet beam? If not, to what extent is deepening being effected, and for vessels of what dimensions (length, draught, and beam at that draught) is accommodation being provided or in contemplation?</p>	Not applicable to any port on Lake Nyasa.

LIMBE (TEMPORARY) LANDING GROUND.

1. INTRODUCTION.

- (a) FUNCTION.—Unlicensed temporary landing Ground. Available for light planes only. Lease of site expires 31st December, 1931, and is unlikely to be re-newed.
- (b) CONTROLLING AUTHORITY.—The Nyasaland Government.

2. LOCATION.

- (a) COUNTRY.—Southern Province, Nyasaland.
- (b) LATITUDE.—15° 52' S.—LONGITUDE.—34° 4' E.
- (c) MAGNETIC VARIATION.—1930.—8° 07'. Annual Decrease, about 8'.
- (d) LOCAL POSITION.—1½ miles South from Limbe Railway Station, adjacent to and East of the Limbe-Cholo main road running South. 6½ miles (road) from Blantyre, South East.
- (e) DAY LANDMARKS.—(i) The country between Blantyre and Limbe shows very much closer European settlement and many more numerous buildings than elsewhere.
(ii) The Railway Station at Limbe with the rail track running from Blantyre.
(iii) The Limbe-Cholo road running South.
- (f) NIGHT LANDMARKS.—Nil
- (g) NATURE OF SURROUNDINGS.—Very broken and hilly country on the apex of a watershed system. Good sites for emergency landings in the immediate vicinity do not exist but cleared spaces on plantations from 8 to 10 miles distance can afford landings for light planes.
